

# YE TOWNE GOSSIP

(Registered U. S. Patent Office.)

By E. C. R.

DEAR E. C. R.: On one of the streets every night there comes a man wearing the cap and coat of a soldier, but with civilian trousers, and every night we have seen this same thing and now it has got our goat.

We were about to take up a collection to buy him a hat and coat, but we saw him reading the page of the paper with your column, so you are hereby respectfully requested to write him through your column and tell him the war is over.

THAT'S THE trouble.

ABOUT RIDING on street cars.

WITH CIVILIAN pants.

AND A khaki coat.

IT'S A mistake.

WHAT HE ought to do.

IS LIVE in Government hill.

## YOU CAN MAKE YOUR SKIN WHITE, SOFT AND CLEAR

With the Lovely Tint of Youth.

By the Use of the Popular Black and White Beauty Treatment.

If you are dissatisfied with your complexion because of unsightly skin blemishes such as liver spots, freckles, rough or pimply skin, do this today—go to your nearest drug store, get a package of Black and White Beauty Soap and a bar of Black and White Soap. Before retiring, wash the face, neck, arms or hands with warm water and soap and dry thoroughly. Then rub and apply the Creamy Ointment, according to directions. The next morning wash off the Ointment, using Black and White Soap. You can see a difference almost after the first night's treatment. Repeat the application and you will be happy with the results.

If you cannot find the Black and White Beauty Treatment—Ointment and Soap, the manufacturers will send both to you postpaid on receipt of 5c.

AND QUIT work.

ABOUT SIX o'clock.

AND GO with the crowd.

AND GET in the car.

IF HE'D do that.

IT WOULDN'T matter.

FOR NOBODY'd know.

WHAT HE had on.

BELOW THE waist.

IF ANYTHING.

BUT GOING to Juarez.

AND RUNNING for the last car.

IT'S DIFFERENT.

YOU'VE GOT to wear 'em.

AND RESIDES that.

THERE'S THE wind.

ON NOVEMBER nights.

CROSSING THE river.

AND ANYWAY.

IT'S NONE of my business.

AND HOW do I know.

WHOEVER HE is.

WITH THE half uniform.

THAT HE is not still in the army.

ON HALF pay.

I THANK you.

## HOROSCOPE

FRIDAY, NOVEMBER 5, 1920.

ASTROLOGERS read this as a fortunate day for most purposes, but they warn that it is a most un-lucky time for love-making. While the sun, Mars and Jupiter are in beneficent aspect, Venus is strongly adverse. Business activities of every sort are well supported and should be successful under this rule of the stars.

There appears to be great promise for all who follow constructive work, whether it be intellectual or material. There is a fortunate forecast for all who enjoy the good things of life and exist on the plane of which attraction. Mars seems to indicate that there will be much interest focused in military matters and even some movement of troops.

The rule should vitally and influence all who wield power or authority, giving them additional ability to execute big enterprises.

Merchants, importers and all who do large consignments of manufactured articles should make the most of this day's rule, for there will be sharp fluctuations of prices, the seers declare.

Although the stars seem to fore-shadow many advances for men in trade or commerce, the aspects are inimical to the interests of women. This is read as an unfortunate time for women to take any decided action in business or social affairs. They will be especially unfortunate if they deal with men who will be likely to resent them as associates in business quite as much as if they were competitors.

This is not a lucky wedding day, since it forebodes a domineering and selfish attitude on the part of the husband.

Two topics will be much discussed in private as well as in the public prints at this time. One is marriage and the other race questions. The seers declare that both topics will be thrust through to serious consideration in legislative bodies.

The stars supposed to influence marriage are menacing to old institutions which must be protected if they are to survive the destructive forces of a new social order.

There is a sign read as indicating that attention will be paid to the quality of tone in the speaking voices from this time on as never before. Thus oratory may prove to be a benefit in at least one way.

Persons whose birthdate it is have the augury of a very successful year in business. They should be cautious in love affairs. Those who are employed will be promoted.

Children born on this day probably will have a life that is pleasant and successful. These subjects of Scorpio are careful and resourceful.

## Care Of White Hair

By EDNA KENT FORBES

Few women wish to see their hair turn white. But when it does begin to turn they wish to hasten the process, and look forward to the time when the grizzled gray will be a snow white.

There is nothing more beautiful than all-white hair. At the same time there is nothing uglier than white hair streaked with yellow. White hair requires more care than dark hair, but the results will justify any amount of effort.

Most of the care is in the shampooing. If the hair is greasy, the shampoo can be given by rubbing the scalp and hair with half alcohol and half water. This mixture is cleansing and should be followed by several rinsings in hot and cold water.

Another cleansing shampoo is as follows: Beat up the whites of two or three eggs, rub them over the hair and rub them well into the scalp. After they have dried rinse off with slightly warm water. Rinse again in hot water, then in cool, and finish in fairly cold water. If you must use soap, use your hair to get it clean, use only the finest grade of castile and rinse until every strand is out. For it is strong soap or too much soap that makes the yellow streaks.

If you wish the beautiful silvery tinge, put a very little bluing in the last rinse water. Ordinarily household bluing can be used and will not hurt the hair. After the shampoo a gentle massage with the fingertips will improve the health of the hair and will make it richly glossy.

Browns.—The condition you describe may be cured by massaging the scalp with hot cream oil. This should be done about twice a month, in your bath, and the evening before the regular shampoo. Crude oil can be purchased at the drug stores or a store that carries a variety of household oils. It is thick and dark and contains valuable mineral matter.

Apply the oil to the scalp with the fingertips—the oil should be as hot as the scalp will take it. The head up, the oil will keep the hair from falling out. Shampoo the hair the next day with a pure soap, such as the old-fashioned castile, or some of the antiseptic soaps that are recommended for the scalp.

Watchful Reader.—If the girl is five feet tall, she should weigh about 115 pounds; if she is taller than five feet, add two pounds for each inch.

Mary Anne.—Your method of taking the oil is all right, and I am glad to hear it has been so helpful to you. Olive oil is a food, so you may take it as long as you require the nourishment it affords. It is a good trace your richness to it, as the oil has probably enriched your blood.

All inquiries addressed to Miss Forbes in care of the "Beauty Chat" department will be answered in these columns in their turn. This requires considerable time, however, owing to the great number of inquiries. A personal or quicker reply is desired, a stamped and self-addressed envelope with a postage stamp should accompany the inquiry.—The Editor.

## OPHELIA

Will you give a recipe for apple butter as soon as possible? D. H. H.

A. The department of agriculture recommends that you measure the apples, wash and remove the stems, and for each bushel of apples add four gallons of water; boil until fruit is soft and put through a press or rub through a sieve. To the pulp of each bushel of apples add two gallons of cider that has been boiled down to half its original volume. Bring to a boil and add 12 pounds of sugar. Cook until almost to the desired consistency, add spices, cinnamon and cloves to taste. When the butter is thick as desired, place in hot containers and seal immediately.

Q. I am curious to know if glass distilleries were buried in the ground? K. H.

A. The bureau of standards says that glass would slowly disintegrate when buried in moist soil. This action on the glass would be due primarily to water and alkali. The distilling action would vary with the composition or character of the glass and the conditions that obtained in the soil. This action would probably be extremely slow with any glass, and it would probably be centuries before some glasses would be completely disintegrated.

Q. Is it true that, if a soldier deserts the military service of the United States and remains in the country two years after the expiration of his enlistment he must apply for a deserter's release? W. A. T.

A. The war department says that the period necessary for a deserter to be absolved of punishment is five and not two years after the expiration of his enlistment.

Q. Tell me the best way to keep nuts from drying after they have been shelled. L. G. H.

A. Nuts should be kept in a cool dry place. By spreading them out in a thin layer they may be kept fresh and plump all winter.

Q. What has been done with all the hospital bandages prepared for the war, but not used? H. B. E.

A. The war department says that a million dozen roller and more than two million compressed bandages, together with two million and a quarter one-ounce packages of absorbent cotton, have been disposed of recently. The sale netting more than \$1,000,000.

Q. What are books of the Apocrypha? C. T. R.

A. The Apocrypha consists of Hebrew, Greek and Latin books of the Old Testament. These include: Tobit, Judith, and Baruch.

Q. When is the harvest moon, and when the hunter's moon? N. P. M.

A. The September full moon is called the harvest moon, while the October full moon is called the hunter's moon.

Q. How much water oil is used in the United States? N. E. N.

A. The department of agriculture says that the normal annual consumption of motor oil in the United States is more than 2,000,000 gallons. The motor houses are imported from India, all West India, and South America, and crushed in crushing plants in this country. Importations of the oil are about 1,000,000 gallons.

Q. Can you go to Africa and be safe from cannibals? A. E. M.

A. The greater part of Africa, particularly South Africa, is civilized and extremely up-to-date in as far as its cities are concerned. The only cannibals now found in Africa are the extreme central jungle regions, which are practically unexplored. Africa today has many large and flourishing cities, and also a large white population.

Q. When was Thanksgiving first observed? C. A. B.

A. Thanksgiving day originated in the New England states in 1619, when the first harvest, Gov. Bradford made provisions for a day of fasting and prayer in the midst of a drought. It was changed to a day of thanksgiving because of the coming of rain during their prayers. This was observed annually and soon spread through the New England colonies. In 1817 New York adopted it as an annual observance. In 1863 President Lincoln appointed a day of thanksgiving, and since then the presidents have issued a Thanksgiving proclamation.

## Montana Makes Ruling On Children In Divorce Cases

Helena, Mont., Nov. 4.—That parents to divorce actions may not remove children from the state during the time the case is pending was the decision handed down here by the Montana supreme court.

The decision was rendered in the case of William A. Cash, who is suing his wife for divorce. The couple have three children who have been the object of various times of sensational kidnappings.

While living in Los Angeles with his three children Mrs. Cash permitted the father to take them to a "movie." The next news from them was that the mother received was the information that the father was speeding to Montana with his three offspring. Later Mrs. Cash attempted to escape from the state with a daughter. She was apprehended in Salt Lake City and returned to Helena.

## ONE OF FIRST COINS

MADE IN U. S. FOUND

Dover, Mass., Nov. 4.—A Franklin penny, the first copper coin to be authorized by congress, has been found on the homestead of one of the first settlers here. It was struck in 1797 and is one of a few that were coined. The penny took its name from Benjamin Franklin because of the inclusion in its design of the homely admonition, "Mind your business," after a suggestion by him that coins should serve purposes other than those of legal tender.

This new way to beautiful teeth

Your druggist today has a new way of teeth cleaning. And a ten-day tube is free.

Millions of people now employ it. Leading dentists everywhere advise it. You would never go without it if you knew.

Go ask for that free tube. There are few things more important than well-protected teeth.

Remove the film-coat

You brush teeth now, but you leave much of the film. A viscous film clings to the teeth, enters crevices and stays. The ordinary tooth paste does not end it. So teeth too often discolor and decay.

Dentists now know that the reason lies in film. That causes most tooth troubles. And, until one ends it, brushing fails to save the teeth.

It is the film-coat that discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

What you will see

A test of Pepsodent brings quick and unique effects. One sees and feels them clearly. And a book which comes

Teeth will glisten when the film-coat goes

Get this free tube and watch it. Note how clean the teeth feel after using. Mark the absence of the slimy film. See how teeth whiten as the film-coat disappears.

You will instantly know that Pepsodent does what nothing else has done. In a few days you will realize what clean teeth mean.
